

COMPANY PROFILE

QUALITY ENSURING HIGH PERFORMANCE

AN INTRODUCTION

We introduce ourselves as manufacturer & Exporter of wide range of Electrical and Automation Panels Apart from this, we are also one of the most trusted and reliable service providers of consultancy / engineering services. Our service portfolio includes Process & Detailed Engineering, Automation and Instrumentation with design, programming and supply of PLC, Design and supply of Panels, and Erection, Commissioning & Customer Support. Our product range comprises of

- MCC Panel
- VFD Panel
- AMF Panel
- Synchronizing Panel
- SOV Panel
- Instrument Panel
- PCC Panel
- PDB Panel
- PLC Panel
- APFC Panel
- Soft Starter Panel
- Bus Ducts

ABOUT US

DYNAMIC CONTROL SYSTEMS was established in 2008 by Young, Dynamic and Qualified professional **Mr. Rajesh Patel** to expand our market share in the Electrical field as well as Instrumentation. His Academic Qualification is **B.E (Electrical) and Post Graduate Diploma in Business Management**. Total exposure and field experience worth 30+ years in LT Electrical Panels.

Over the past few years, we have built a strong database of 200+ Domestic and 10+ International Delighted customers. Our professionalism & vast experience has enabled us to create a niche for ourselves & make our presence felt worldwide. With a range of Electrical, Automated & Instrument Control Panels, we are a one-stop centre, providing diverse solutions to our customers.

Under the able guidance of our M.D. **Mr. Rajesh Patel**, our organization has achieved remarkable success since its establishment. His strong business acumen and rich industry experience has played a vital role in the growth of our organization, backed by a team of highly proficient, talented, and diligent workforce. Our team of experts tries its best to understand the exact demand and requirement of the client.

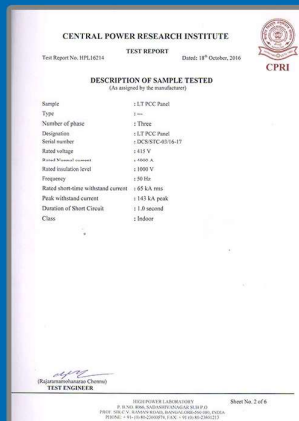

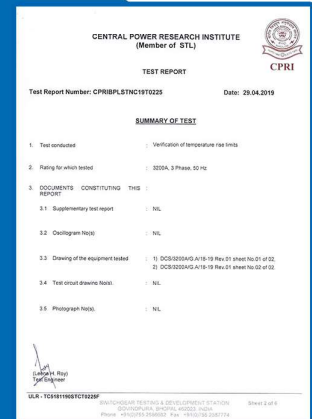

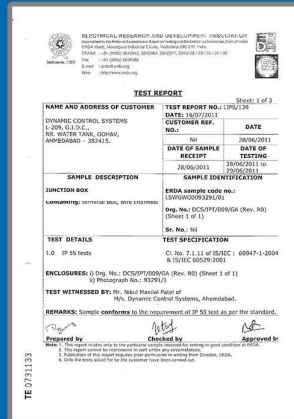

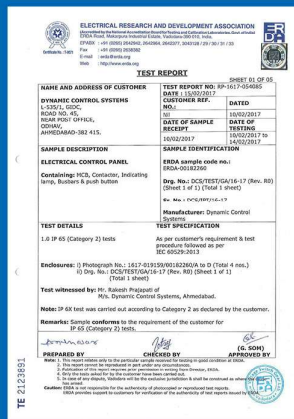

OUR FACTORY

CERTIFICATIONS WE HAVE

- Approved Vendor for LT Panels of GWSSB.
- Approved Vendor for LT Panels of Military Engineering Services.
- CPRI, Bangalore: Type test Certificate for Short Circuit- 65 KA/1 sec.
- CPRI, Bhopal: Type test Certificate for Temperature Rise, 3200A.
- ERDA, Baroda: Type Test Certificate for Protection Class-IP 55.
- ERDA, Baroda: Type Test Certificate for Protection Class-IP 65.
- ISO - 9001:2015 by International Certifications Services.

CERTIFICATES

OUR STRENGTHS

As a rapidly growing organization, we constantly seek to achieve excellence in every activity that is undertaken. Some of the stand out features of the organization, which propels it ahead of its competitors, is as follows:

**System base
professional Organisation**

**Working on ERP Software for all department
(Like Production, Planning, Stores etc.)**

**Working on Software for
Designing and Estimation**

**Best quality products by
following ISO standards**

**On time delivery of
product**

**Prompt
customer support**

WE CATERED FOLLOWING INDUSTRIES

Our range of products and services is known for its reliable approach, efficiency, & excellence and thus, are utilized by industries such as

Chemical

Textile

Sewage Plants

Pharmaceuticals

**HV AC
Air conditioning**

Food Processing

Water Treatment

Pump Houses

OUR DYNAMIC TEAM MEMBERS

HEMANT PATEL

Bachelor of Engineer in Electrical having total exposure worth **30+** years in Marketing of Switchgears, Operation & Maintenance, HT / LT Electrical Installations in various Projects. Has worked with the many MNC Companies.

KRUNAL PATIL

Diploma Electrical Engineer. Has experience of worth **10+** years in the field of Panel Manufacturing and Customer Support. He has good skill of Panel process optimisation and Quality Control. He has successfully executed many projects in least lead time without compromising quality.

BHAVIN SALI

Diploma in Electrical Engineer. Has experience of worth **10+** years in the field of Maintenance, Production, Design and Costing of Panels. Has worked with reputed companies in this field.

NISARG PATEL

B.Tech (Electrical). Has experience of worth **5+** years in the field of Design and Costing of Panels. Having good skill of Communication and Customer Support.

KAJOL RAJPUT

Commerce Graduate. Has experience of worth **5+** years in the field of commerce. She he has good skill of Office Administration, Finance, Taxation, Banking, Purchase and Planning.

MANUFACTURING & TESTING FACILITIES

The organization has a state-of-the-art manufacturing unit, which is well equipped with all the latest machines and technologies. All the machines are operated by a team of experienced technicians, which has the requisite experience behind them.

Our manufacturing unit is well integrated with several units such as a fabrication section, an electrical wiring & assembly section every department is equipped with high accuracy tools for Hydraulic Lugging Machine, Wire Stripper, Crimping tool, PVC Channel Cutter, MCB Channel cutter etc. We are using **ERP software** for best utilisation and records for all departments like production, planning, Purchase, Stores, Quality, Customer Support. We use **Estimation & Designing Software** for compact, precise and best engineering features.

Our Quality Control department follows Quality Assurance Plan as per **ISO 9001 : 2015**

To measure the steel sheet thickness, we have high accuracy measuring tools like **Vernier Callipers and Micrometers**

To measure the thickness of Paint/Powdercoating We have **Digital Paint Thickness meter**

We have **Megger, HV Tester, Clamp On Meter, Multimeter, Earth Tester** to measure the various electrical parameters

For electrical load test we have **Primary Current Injection Kit** up to 1000Amp

All above measuring instruments are calibrated regularly thru **NABL** certified Agency as per our ISO schedule.

OUR PRODUCTS

POWER CONTROL CENTER PANEL (PCC)

We offer PCC Panel with a current carrying capacity up to 6300Amp. As a special feature we can provide Energy management system thru which you can have record of Energy parameters like KWH, Amp, PF, Tripping history etc.

MOTOR CONTROL CENTER (MCC)

We offer MCC Panel, a device that is used to control and actualize the performance of an electric motor. These are offered in a wide variety such as fully draw out / Fixed type / Compartmentalized / Non compartmentalized / Single-Double front operated. It is equipped with DOL, Soft Starter OR Star Delta Starters.

OUR PRODUCTS

AUTOMATIC POWER FACTOR CORRECTION PANEL(APFC)

We offer APFC Panel up to 1000 KVAR with Thyristor Cards or Contactor based depends on nature of Load. We supply the panels with APP / MPP Capacitor Banks, Detuned Reactors. as per characteristics of electrical loads.

POWER DISTRIBUTION PANEL (PDB)

The power distribution panels can be availed with MCCB / SFU / MCB fully equipped with all necessary safety precautions. We offer Feeder Pillar Panels / Fuse DB / Busbar Distribution Boards with Canopy and double Doors for Outdoor Applications also.

OUR PRODUCTS

PLC PANEL

PLC Panels are used for Automatic, Efficiently and hassle free operation of Plant / Machine. PLC Panels are equipped with all necessary switchgear like PLC Modules & HMI. For high end application we provide Expandable PLC with SCADA & Ethernet port to control the PLC from anywhere in the world.

DRIVE CONTROL PANEL (VFD)

We offer VFD Panel fully equipped with all the necessary switch gears like MCCB, Bypass Contactor, Input / Output Chock, Speed Control Pot etc. As a special features we can provide VFD Panel with DOL / Star Delta starter.

OUR PRODUCTS

AMF PANEL

AMF Panel is one of our product which can be used for automatic change over between Mains and DG supply. By installing this panel one can get power from DG at the time of failure of Mains and it will shut off the DG when Mains restores.

SYNCHRONISING PANEL

By installing Synchronising Panel one can get power from Mains and DG or DGs at the same time (From Common Bus) depends on his load demand. It will automatically Start / Stop DG as per Load demand.

OUR PRODUCTS

INSTRUMENT PANEL

Instrument Panel are used to Monitor / Control the operation of Instruments like Temperature, Level ,Flow, Pressure etc. We can provide Annunciator & Hooter so that operator has instant idea about any abnormal conditions in Control room.

SOV PANEL

We are the prominent manufacturers of SOV Panel. By using this panel customer can use his electrical signal for pneumatic applications.

BUS DUCT

We hold the expertise in design, engineering, & manufacturing of various types of conventional Type Bus ducts with a range up to 6300Amp. Busbars with Heat Shrinkable Sleeves and well supported on SMC / DMC / FRP supports. We can offer ingress protection IP-54 / IP-55 / IP-65.
